Technical Skills:

Areas	Tools & Technology
Testing Methodology	Agile methodology
Test Approach	-
Tools Utilities	Visual Studio,VS Code,,SQL Server
Framework	.Net
Programming Languages	.Net Core ,ASP .NET MVC Web API ,Angular,HTML , CSS , JavaScript ,jQuery,Xamarin forms,vue.js
Operation Systems	Windows,Mac

Work History:

Duration:	2.5 Years
Position:	Engineer - Software Development
Description:	Gateway Group of Compaines

Projects Information:

Domain:	Retail Tech
Duration:	11 Months
Description:	In Retail Tech, created an app and portal named as TRAZE. TRAZE is a solution for the retail store/super mall chain to manage inventory, sales, and services using Azure Web Services. The application supports RFID, a Camera scanner to quickly scan items (Article added in basket/cart), and multiple payment integrations (Vipps / Klarna / Verifone / Softpay) for billing. The back-office portal manages the entire Chain with Store, User, Article, Report, Analysis, POS management modules, etc.
Position:	Engineer - Software Development
Tools & Technologies	Visual Studio 2019, SQL Server 2018, ASP .NET MVC Web API , MS Server 2017 , HTML5 , CSS3 , Bootstrap , JavaScript , jQuery, Xamarin forms, vue.js
Roles:	Worked as a front-end developer and xamarin developer

Domain:	Kverneland Bill
Duration:	8 Months
Description:	The objective of this project is to develop a smart planner wherein they can create appointments and plan them smartly along with 2-way sync with DBMS. We have an Intranet Application as Smart Planner and a public Application tracker. We also integrated DIBS for payment, Telenor, and Bisnode as a 3rd party tools.
Position:	Engineer - Software Development
Tools & Technologies	Angular 7, .net WebAPI , Csharp, SQL Server 2018
Roles:	Worked as a full stack developer

Domain:	AMT
----------------	------------

Duration:	4 Months
Description:	It is a web application and backend application for the vehicle Leasing, Rent, Brokerage, and Acquisition business. Admin portal of the application provides to select a vehicle based on the user's need, generate the best leasing price as per criteria, and manage the customer details from the portal.
Position:	Engineer - Software Development
Tools & Technologies	Visual Studio 2019, Visual Studio Code, SQL Server 2018, C# ASP .NET MVC Web API , HTML5 , CSS3 , Bootstrap , JavaScript , jQuery
Roles:	Worked as a full stack developer

Domain:	Lease Management
Duration:	7 Months
Description:	Lease management is a web-based system that allows the customer to register and reserve vehicles online and the company effectively manages its leasing vehicle book. Vehicles or lease vehicles can be searched on the basis of category and brand as per the customer's requirement and the customer can also pay rent or the total amount of the vehicle via a payment gateway like Paytm. Down Payments and the total Number of EMI's amount and duration will be calculated automatically.
Position:	Engineer - Software Development
Tools & Technologies	Visual Studio 2019, Visual Studio Code, SQL Server 2018, C# ASP .NET MVC Web API, HTML5 , CSS3 , Bootstrap , JavaScript , jQuery
Roles:	Worked as a full stack developer

Education & Certification:

- **MCA** - from From GLS University - 88% (2020)
- **BCA** - from From GLS University - 93% (2018)
